Employment History**Current Post**

Title:	Clinical Assistant Professor & UKRI Future Leaders Fellow
Institution:	London School of Hygiene & Tropical Medicine, United Kingdom (LSHTM)
Description of post and relevant clinical trials experience:	<ul style="list-style-type: none"> Fellow and Principal Investigator on a career development fellowship funded by UK Research and Innovation (UKRI). Experienced in epidemiological research and clinical vaccine trials related to the control and prevention of Ebola, HIV and malaria. Led the paediatric vaccine trials, findings of which contributed to the approval of the novel two-dose Ebola vaccine regimen (ZABDENO/MVABEA) by European Medicines Agency. Developed and evaluated a simplified digital informed consent tool for delivering consent information to research participants. The tool aided comprehension and retention of consent information thereby supporting the ethical framework for obtaining truly informed consent in vulnerable populations.
